

# Faculty of Cybernetics

<http://cyb.univ.kiev.ua>

## Department of Applied Statistics

<http://applstat.univ.kiev.ua>

(System analysis specialization)

<http://omega.univ.kiev.ua>

### Developed distant courses:

- Probability theory
- Statistical data analysis and statistical software
- Mathematical methods of economics and social processes sampling examination
- Actuarial mathematics

### Advantages of the system:

- Straightforward web installation.
- Convenient usage by lector (preparation of lectures), administrator (preparation of web version) and user (student).
- Flexibility (can be used for development of different distant courses and examination systems).

Corresponding tests and examinations are provided for each course.
